

IS PROTECTING YOUR LAKE IMPORTANT TO YOU?

SAVE-THE-DATE!

Every property contributes **STORM WATER RUNOFF** to our water bodies. Storm water runoff pollution is considered to be the greatest threat to lake water quality. Learn how YOU can help protect YOUR Investment, YOUR health, YOUR lake.

WHEN: Tuesday, June 18th from 4:30 PM to 7:30 PM

WHERE: Meredith Community Center, 1 Circle Drive, Meredith, NH

WHAT: Workshop attendees will receive practical information on how to better manage storm water on their property. The program is formatted to allow you to “drop in” at your convenience, attend a presentation of interest, and meet informally with representatives of state and local organizations that can answer questions, share ideas and identify next steps.

There is no charge to attend this event

The event is open to everyone

Light refreshments will be served

Hosted by the Waukegan Watershed Advisory Committee
