The Town of Meredith in Belknap County seeks proposals from individuals or entities wishing to lease part or all of the following agricultural areas owned by the Town as described further below. The area is identified on the attached maps.

Proposals are sought from a partner or partners willing to work with the Town to maintain soil fertility and other natural resources while managing the areas for agricultural uses. As these are public lands, the Town seeks to balance the use of these areas for food and forage production while also protecting the resources for future generations. Uses of these lands shall therefore conform to the Town's Forest Management Plan, which seeks to both sustain and improve natural resources over the long-term.

Upon request, the Town will provide all lessees with "Control of Land" documents needed to enroll in the NRCS Environmental Quality Incentives Program (EQIP), a voluntary cost-share program that offers financial reimbursement to farmers following conservation practices.

The Town will accept proposals for all or some of these areas. Proposals should indicate preference and describe intended management.

**Meredith Conservation Commissioners are available to tour the properties with interested parties. Please contact Scott Powell at (603) 279-7449 or by e-mail at [conservation@meredithnh.org](mailto:conservation@meredithnh.org)**

9. The Town reserves the right to issue one or more leases for these areas, to reject any and all proposals in whole or in part, and to waive any informality or technical defects if, in the Town's sole judgment, the best interest of the Town will be served.
