

MEREDITH, NEW HAMPSHIRE

NHSAVES 2017 Button Up

FREE Home Energy Workshop

NHSAVES Button Up Workshop

is a 1.5 hour presentation about how to improve the energy efficiency of your home. It covers basic building science principles as well as examples of whole house weatherization measures that will button up your home for the heating and cooling seasons. It also covers details about the energy efficiency programs offered by NH utilities to provide energy audits and weatherization, rebates on electric and gas appliances as well as new construction. NH residents wishing to use energy more efficiently, conserve energy and save money on their electricity and heating bills, will find the information very useful. Each workshop is free and presented by a knowledgeable *BPI Certified Building Analyst*. A utility representative will be available following each presentation to answer further questions about their programs.
