### Members Absent

D J Quagliaroli                      Wendy Bagley

### Staff Present

John Edgar                      Angela LaBrecque

### Consultants Present

Clay Mitchell                      Jon Spencer

Meeting called to order at 7:00 PM

### **Minutes from February 10, 2011**

- Motion to approve by Brothers, seconded by Leberman. Discussion from Billings to edit comments regarding the lighting upgrades to state they will begin following evaluations of the energy audits. With edits, voted unanimously.

### **Energy Grants – Angela LaBrecque**

The energy audits being conducted on the municipal buildings have been completed. The written reports should be available for review within the next 30 days. Billings took video of the blower test and thermal imaging as part of the energy audit on the Town Hall Annex. It was suggested that the auditing firm should make a presentation to the committee with recommendations on opportunities to improve the energy efficiency of the municipal buildings. We should schedule the meeting so that we could invite other town officials and committee members.

- Board of Selectmen
- Town Manager
- Department Heads
- Planning Board
- Building Managers

The remainder of the meeting was a PowerPoint presentation outlining the methodology being considered in the conducting of the Greenhouse Gas Inventory for the Town of Meredith. There were an additional three slides outlining the contents for the Meredith Energy handbook.

\* copies of presentation will be made available.

Member Comments

Nate Torr will be replacing Peter Brothers as the Board of Selectmen's representative on the committee.

Chairman Colburn informed the committee that 1 of the 10 energy audits we gave away as a door prize at the Energy Fair is available. The winner was not a homeowner and could not use the prize.

Next meeting will be April 14, 2011

**Motion to Adjourn** by Billings, seconded by Bayard. Voted unanimously.

Meeting adjourned at 9:00 PM
