

# Waukegan Watershed Advisory Committee Meeting Minutes August 2, 2005

Members Present:

Bruce Bond  
Randy Eifert  
Bonnie Ireland  
Bob Vogler  
Tim Whiting

Staff Present:

Bob Hill  
Jacquie Colbert

The meeting began at 6:20 pm.

The July 6, 2005 meeting minutes were accepted as written.

Bruce reported that the Waukegan Watershed Management Plan presentation to the Meredith Selectpersons would be on Monday, September 12, 2005 at the meeting room at the Meredith Police Station. The time to be determined. At this time, our presentation will be the only order of business for the Selectboard that evening. If additional business is added to the docket, the WWAC presentation will retain a priority status.

At this meeting, Bruce, Bonnie and Randy had agreed to be the presenters to the Meredith Selectboard. They will meet as often as necessary to decide who presents what and will assemble the presentation as they see fit. They agreed to do a dry run of their presentation at the next meeting of the WWAC on Tuesday, August 30, 2005. They request that all the WWAC members be present at the presentation to the Meredith Selectboard on September 12<sup>th</sup>.

Bob Hill handed out the July 7, 2005 water analysis results. Two water samples were taken – one at the water surface and one at a depth of 12 feet. Both were taken in the vicinity of the Lake Waukegan Boat Ramp. Of the 71 analytes measured only two analytes – MTBE and Toluene exceeded the Reporting Detection Limit (RDL). The other 69 analytes were Below Detection Limit. The values for the two were:

<u>Analyte</u>	<u>Surface level</u>		<u>12 foot level</u>		<u>MCL(Maximum)</u>
	<u>Result</u>	<u>RDL</u>	<u>Result</u>	<u>RDL</u>	
MTBE	.5	.5	.6	.5	Not specified
Toluene	.7	.5	.9	.5	1000

All values are in ug/l.

Bob Hill pointed out that while MTBE and Toluene are being detected in the water samples taken in the lake, water tests taken in the water treatment plant did **not** detect these analytes. Another set of test samples is being scheduled for August 10, 2005. For this test, the water at three levels will be taken and the samples will be taken in the vicinity of the Meredith water intake in Lake Waukegan.

Next Meeting: Tentatively Tuesday 8/30/05 at 7:00pm, location to be announced.

The meeting adjourned at 7:15pm.

Minutes submitted by Bob Vogler.  
These Minutes approved at the 10/4/05 meeting.
